

## **FOR THE METALS INDUSTRY**

### **WHEN YOU NEED EXPERIENCED PROFESSIONALS**

From our humble beginnings supplying and installing refractory linings, to the full service contractor catering to the needs of the metals industry we are today, Southeastern has gained vast experience in solving the problems that arise in metal melting and heat treating equipment.

This experience has included working with:

- Ferrous Metals
- Nonferrous Metals
- Exotic Metals

### **WHEN YOU NEED DIVERSITY OF SKILL**

We've delved into virtually all metalworking and melting industries including:

- Automotive
- Bearing
- Commercial Heat-Treat
- Gear
- Forging
- Carbonizing
- Foundry
- Specialty Products

### **WHEN QUALITY MATTERS**

We are proud of our reputation for delivering high-caliber services at the lowest possible cost and take pride in finding ways to save you time and money.

Our ingenuity speaks for itself; and our customers like to talk us up, too. Visit our gallery and testimonial pages to see what we mean.

Whatever Your Furnace Needs are Southeastern has the Experience
